

Doctrinal Studies:
A COSMIC BELIEVER

1. A cosmic believer *is a soul minus Truth* - therefore unhappy.
2. The rejection of spiritual food is tantamount to Adam's rejection of perfect happiness in the Garden. Man started with perfect happiness, and perfect environment. Wrong decisions were made; unhappiness was created by volition. Since happiness is the invention of God, He only distributes and administers to those who are in the divine power sphere (DPS).
3. Once man had sinned (Tree of Knowledge of Good & Evil) then eating of the Tree of Life (TOL) would simply have perpetuated his state of unhappiness in the Garden - therefore the TOL was shut down.
4. The Church, a Christian institution, was designed for the believer's happiness, but minus spiritual food (SF), the believer is a part of an institution designed for happiness, but he or she is nevertheless unhappy.
5. Marriage is a divine institution designed for happiness in marriage, but unhappy people minus SF are unhappy in a divine institution.
6. The soul is in the body, and the body takes the soul wherever you go. If unhappy, then you take that unhappiness with you.
7. A person can be unhappy at a happy party, or they can be unhappy with a million dollars.
8. Happiness in happy circumstances belongs to the happy – believers with maximum truth in the soul. Happiness in unhappy circumstances also belongs to the happy.
9. Happiness belongs to the winner believer. Happy, winning folk have their souls filled with the thinking of the Lord Jesus Christ.
10. It is inevitable that the winner should have access to a special reward in heaven, and in eternity (Revelation 2:7, TOL). Happiness belongs to the person who lives in the DPS.
