

# **Immutability of God**

God has a plan for victory for those who choose to remain within His plan. He is immutable, absolute, dependable, and eternal – above the possibility of change – *Immutable*.

## **IMMUTABILITY OF GOD**

Creatures change, but God does NOT change, as He is infinitely perfect. There is no change that does not imply imperfection; there can be no increase or decrease of God's attributes. All Three members of the Godhead have the same attributes – sovereignty, righteousness, justice, eternal life, omnipotence, omniscience, omnipresence, immutability, and veracity. There can be no addition to the number of His natural attributes, and there can be no increase of their capacity and power.

It's absurd to suppose that God can be more sovereign, or less sovereign, more, or less eternal, more or less powerful or knowing, more loving or less loving.

Definition of God's Immutability: God in His nature, attributes, and council is unchanging. This means in His instruction, wisdom, consultation and discretion cannot change.

Immutability does not imply immobility or inactivity, for He is infinite in power and energy.

How immutable is God? [Malachi 3:6; James 1:17](#) tells us.

- I. *No shifting* means that *God's Grace is always stable, and is never eclipsed*.
- II. If a person wants to be saved, they must be saved *God's Way – the Way of Grace*. If a person wants to grow in Grace, they must do it *God's Way – the Way of Grace*.
- III. God is absolute stability ([Isaiah 40:28](#)).
- IV. His Word and His works are unchanging ([Psalm 119:89; Ecclesiastes 3:14; Isaiah 40:8](#))
- V. From God's immutability comes His faithfulness ([Psalm 36:5, 89:33, 119:90; Lamentations 3:22, 23](#))
