

PATMOS

1. Patmos is a Barbell shaped island close to the shores of Turkey – about 2 hours from the closest major island, Samos.
 2. The Apostle was banished from Ephesus to Patmos, which could be described as the dumping ground from Ephesus.
- Important things can happen in strange places
 - Being alone lets us know that we are not alone
 - What we learn in the “alone situation” can make a difference for the rest of our lives.
